

RSG SOFTWARE END USER LICENSE AGREEMENT

This RSG Software End User License Agreement (“**License Agreement**”) is a legal agreement between you or the entity you represent (“**you**” or “**your**”) and RSG Software, Inc. (“**RSG**”, “**us**”, “**we**”, or “**our**”) regarding your use of the CFS® software and related files (“**Software**”).

Please read this License Agreement carefully before installing or using the Software and the end user documentation. The Software and end user documentation are copyrighted and licensed and not sold. By installing or using the Software, you are accepting and agreeing to the terms of this License Agreement. If you do not have the authority to bind the person or entity which will use the Software, do not install the Software or accept and agree to the terms of this License Agreement without obtaining approval from a person having such authority. If you are not willing to be bound by the terms of this License Agreement, you should promptly and permanently remove from your system and render inaccessible the Software and the end user documentation. This License Agreement supersedes any and all license agreements governing any licenses of the Software previously granted by us to you and any such license agreements are hereby amended and modified to conform to the terms and conditions of this License Agreement.

1. LICENSE GRANT

We grant to you a limited, non-exclusive, non-sublicensable, and non-transferrable license to use the Software in the original, unmodified, machine-readable, object code form only, as delivered by us, including all upgrades, enhancements, updates, and new version releases that we may provide to you and the accompanying end user documentation only as authorized in this License Agreement and for the purposes contemplated by the end user documentation.

2. LICENSED RIGHTS

(a) Free License. You may use the Software without purchasing a Software license. The Free License allows you to use the Software in “light” mode. There are limitations on features and functionality available to you when you use the Software with a Free License. You may purchase a Single User License or a Network License at any time to upgrade the Software to a full license with all features and functionality in the Software enabled.

(b) Single User License.

(1) Installation and Restrictions. If you purchase a Single User License, the Software will be restricted to the computer and user name for which the license is activated. Single User Licenses are not permitted to be used on virtual servers or other “thin client” computer configurations. Reformatting your computer’s hard drive or changing hardware components will require deactivation and reactivation of your license.

(2) Term. Single User Licenses are purchased as a one-year subscription. Your License will expire at the end of one year, and you may purchase a license renewal for another year.

(c) Network License.

- (1) Use.** If you purchase a Network License, the Software may be installed on multiple computers and the license may be shared by multiple users. The number of Network Licenses purchased is the maximum number of concurrent users permitted. Your Network License usage will be managed by the file system on a shared network folder. An end user must close the Software before another end user may use the Network License and Software.
- (2) Term.** Network Licenses are purchased as a one-year subscription. Your License will expire at the end of one year, and you may purchase a license renewal for another year.
- (3) Restrictions.** Network Licenses may only be used by end users employed by the company that purchased the license and only by employees located in the same country as the license server. Changes to your network environment or shared network folder location will require deactivation and reactivation of your license.

3. RESTRICTIONS ON USE AND TRANSFER

- (a) Copies.** You may retain installers and executables for the Software for backup purposes only. You may not copy or distribute the end user documentation or supplemental files for any reason. You may print online documentation for your personal use. Any such copies of the Software or the end user documentation must include our copyright, trademark, and other proprietary notices. Under no circumstance are you or any person under your authority or control permitted to use the Software or end user documentation or to make or use any copies thereof in excess of the rights provided to you in this License Agreement.
- (b) Assignment of Rights.** You will not voluntarily or involuntarily, in any form or manner, assign, transfer, or pledge the Software, end user documentation, or other rights under this License Agreement to any other person or entity, including any assignment or transfer incident to your merger or consolidation with another entity, or any assignment or transfer by operation of law, without our prior written consent. You will not sublicense, lease, network, rent, loan, distribute or share your license to the Software, end user documentation, or other rights under this License Agreement with any other person or entity. You may not use the Software or end user documentation to provide hosted services or to operate a service bureau. You may not publish, disclose, or otherwise display in writing, electronically, or otherwise any part of the Software, end user documentation or such other rights without our prior written consent in each such instance. Any such assignment, sublicense, transfer, pledge, lease, network, rental, loan, or sharing of your license, or any other rights under this License Agreement, absent our prior written consent will be void and of no force or effect and, as will any such publication, disclosure, or display, will cause the immediate termination of this License Agreement and your license and rights under this License Agreement.
- (c) Modifications.** You will not reverse engineer, decompile, disassemble, re-engineer, reverse assemble, reverse compile, or otherwise translate or create, attempt to create or permit, allow or assist any third party to reverse engineer, decompile, disassemble, re-engineer, reverse assemble, reverse compile, or otherwise translate or create the source code of the Software or its structural framework. You will not modify, enhance, or create derivative works based upon the Software in whole or in part, including any derivative works based upon the database structures of the Software, nor will you otherwise change the Software, or any of the foregoing

without our prior written consent in each such instance, which consent may be withheld or conditioned within our sole discretion. You agree that any modification, enhancement, derivative work, or other improvement to the Software and the end user documentation developed by us, you, your employees, or independent contractors, whether with or without our consent, advice, or support, will be our exclusive property and you hereby assign to us all such rights, title, and interest therein and agree to make such further assignments and take any other affirmative actions we request to further manifest such assignment. Any such modified, enhanced, or derivative versions of the Software and end user documentation will not constitute software or user documentation different from the Software and the end user documentation, and, as such, will be subject to and governed under the terms and conditions of this License Agreement.

(d) Concurrent Use. The Software may not be used concurrently on more than one computer unless you have purchased Software licenses that allow concurrent use.

(e) Computer Equipment. The Software may only be used on a computer that you own, lease, or otherwise control.

4. INTELLECTUAL PROPERTY AND OWNERSHIP

(a) Intellectual Property. We reserve all right, title, and interest in all intellectual property arising out of, related to, or in connection with the Software and end user documentation that are not expressly granted under this Agreement. You acknowledge that you have no right or authority to use this intellectual property except as specifically granted in this License Agreement. You may not alter, obscure, or remove any proprietary notice of RSG, or any other party, from any copy of the Software, including any end user documentation, corresponding documentation, associated media, printed materials, and online or electronic documentation.

(b) Ownership. The Software and end user documentation, including any modifications, revisions, enhancements, or derivative works are our proprietary products protected under law. This License Agreement does not convey to you an ownership interest in or to the Software or the end user documentation, but only a limited right of use in accordance with this License Agreement, which right may be terminated in accordance with the terms of this License Agreement.

5. OBLIGATIONS OF THE PARTIES

(a) Your Obligations. You have the sole responsibility for acquiring, installing, and maintaining the technology environment and equipment necessary to properly access, operate, and utilize the Software. You will establish adequate operational back-up systems and procedures to ensure recovery and continuity of your data, systems, and operations in the event of a failure. You will be solely responsible for the security and confidentiality of any username, password, and license key granted to you to access the Software. An “error” is any failure of the Software to function in substantial conformity with the applicable end user documentation we provide with the Software. We may correct errors by making revisions to programming or by providing reasonable “work-around” solutions. We reserve the right to modify any end user documentation if the end user documentation, in our sole determination, incorrectly describes the Software functions and may do so in order to resolve an error. We retain sole discretion to determine whether and when to make new releases available and the terms on which they will be made available to you. We will only provide technical support to you if you have a paid up and current Single User License or Network License. Support is provided by email but we may contact you by telephone at our discretion.

Your sole and exclusive remedy for any claims related to the Software, end user documentation, or this License Agreement will be, in our sole discretion, to return to you the fees you paid for the Software license or to replace the Software that does not meet the limited warranty described in this License Agreement. Any replacement Software will have the limited warranty described above for the longer of 30 days or the remainder of the original limited warranty period. This remedy is not available outside of the United States of America.
